### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Applicants timely filed TD, which is approved and overcome the obvious double patenting rejection. The application is therefore, in condition for allowance. The claimed invention is directed to a particular medium for detecting vancomycine resistant medium. No prior art teaches or suggests a medium for detecting vancomycine-resistant Enterococci with two detectable markers during culturing the isolated clinical sample in a medium. The medium comprises two nutrient factors, and vancomycine as well as other reagent for inhibiting the growth of non-vancomycine-resistant enterococci and other microorganism, wherein the nutrient factors are not only essential for growing the vancomycine-resistant Enterococci but also are subjected to be metabolized to produce two detectable signals for an immediately indication of the vancomycine-resistant enterococci presence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 33-47 are allowed.
